

INSTALLATION INSTRUCTIONS

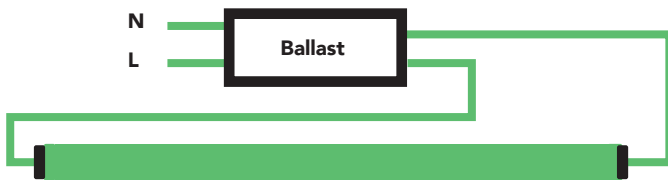

- Do not make mass installation before testing.
- Installer must affix a warning label to the fixture, which announces the fixture has been altered.

- Risk of electric shock.
- This device is not intended for use with emergency exits.
- These lamps are not to be used in damp / wet locations.
- If the lamp or luminaire exhibits undesirable operations (buzzing, flickering) immediately turn off power, remove the lamp.

PLUG AND PLAY & DIRECT WIRE

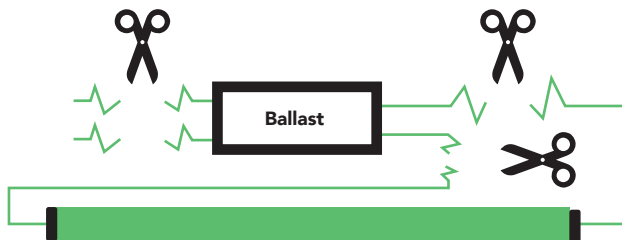

Plug and Play Installation

1. Turn off the power to the light fixture at the breaker panel before the installation.
2. Open the diffuser from the light fixture.
3. Remove the fluorescent tubes. Dispose of these items properly as they may contain mercury.
4. Install the LED tubes and close the diffuser.
5. Turn on power.

Direct Wire Installation

1. Turn off the power to the light fixture at the breaker panel before the installation.
2. Open the diffuser from the light fixture.
3. Remove the fluorescent tubes. Dispose of these items properly as they may contain Mercury.
4. Cut the wires shown, remove the ballast.
5. Connect wires to sockets according to the diagram below.
6. Install the LED tubes and close the diffuser. Turn the power on.

Reference wiring diagram on tube label for single or double ended connectivity.
